

Fighter Plane Project...

Name: _____

Name: _____

Allies v Enemies:

To help celebrate the latest instalment of the popular 'Call of Duty' franchise, Global Gaming Developers 'Activision Publishing', have asked your school for assistance to launch their newest addition to the series, 'Call of Duty Black op WWII'.

Your class has been asked to create a number of Allie and Enemy 'Model Fighter Planes' for display in an upcoming Launch.

It was requested however to create an equal balance of Allie and Enemy planes, therefore one half of the group shall make 'Allie Planes' while the other half will make 'Enemy Planes'.

(Underline any Key **words** & **information** from above).

Analysis of the Brief...

Key Words...

--	--

Who were the main countries that fought in World War 2 ???

In the sections below, list Allie and Enemy Nations..

Allies...

Enemies...

For your Model Plane, there are two main areas in which your design input is required:

- Form/Shape of the Wings
- Planes badges/ designs to represent the Country of choice (Pyrography)..

The get a better understanding of how these Planes look, research is required..

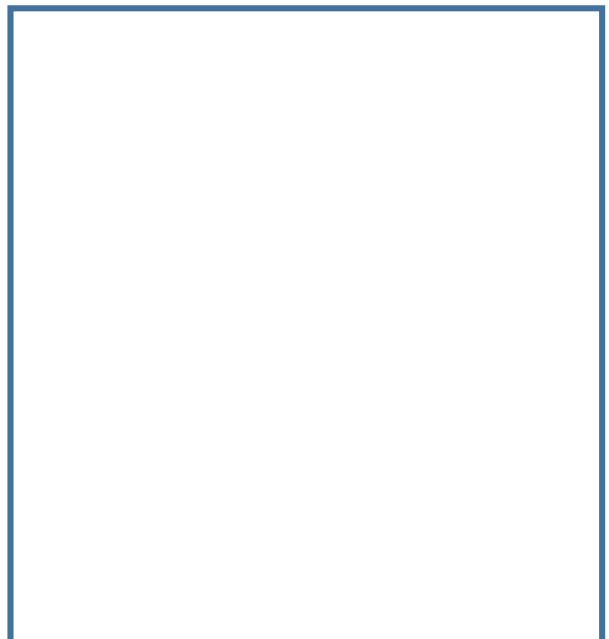

Where could you research such information ??

Whilst researching Allie & Enemy Planes, what did you notice about the form of the wings? How were they shaped? (Sketch 2 wing designs that you might like to use for your project in boxes below)

Wing Design/Shape #1

Wing Design/Shape #2

Investigation & Research...

Research any '3' Allie or Enemy Planes. What kind of badges, logos, designs do they have? Pick Designs that appeal to you.. (Sketch Logo's/Designs etc. in boxes below)

Plane Designs/badges #1

Country: _____

Allie or Enemy? _____

What do you like about this design ? _____

Plane Designs/badges #2

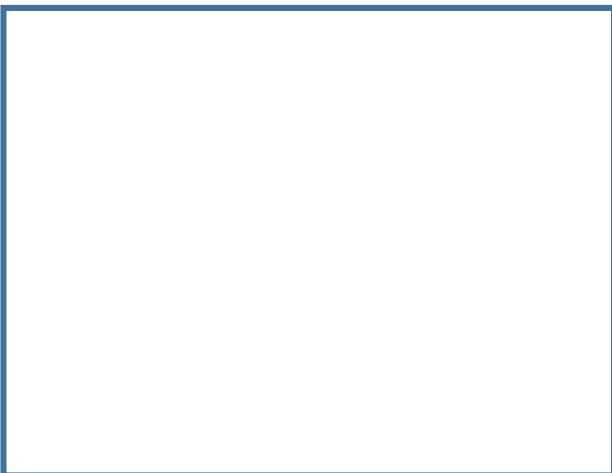

Country: _____

Allie or Enemy? _____

What do you like about this design ? _____

Plane Designs/badges #3

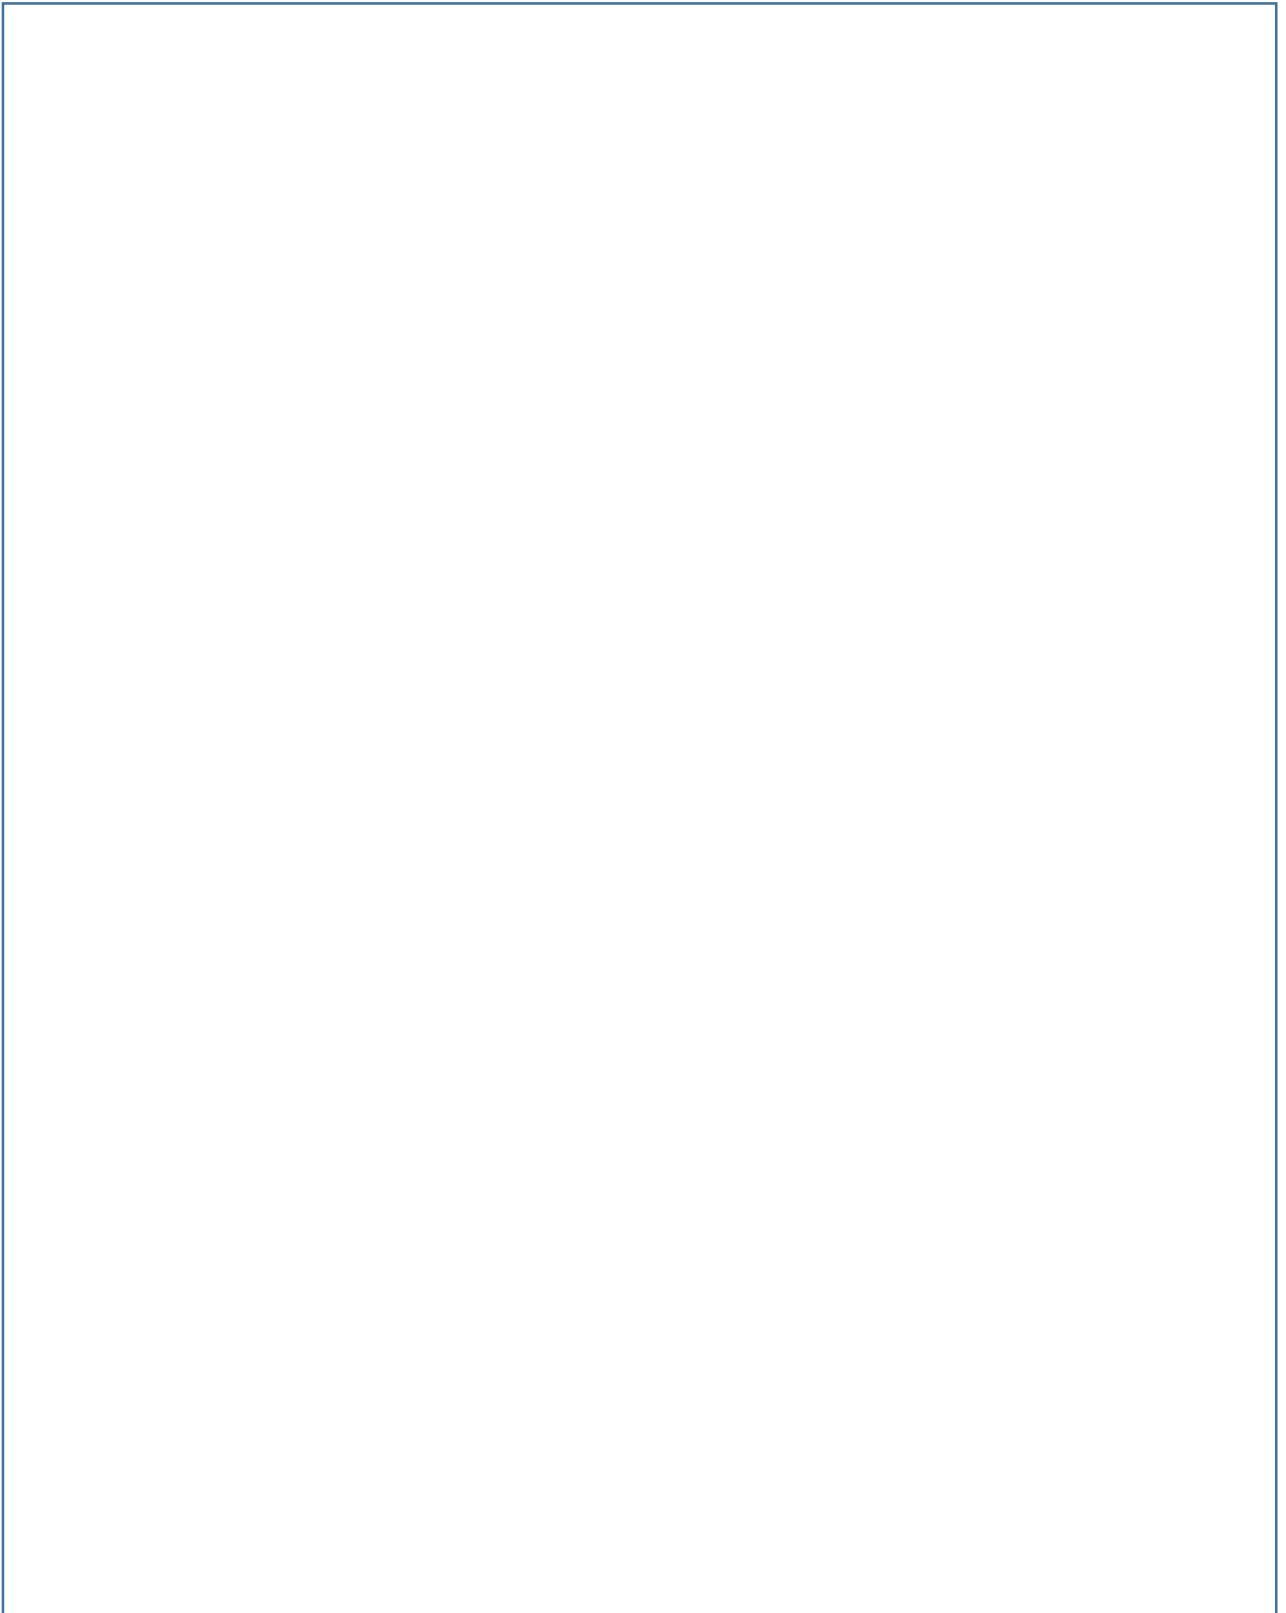

Country: _____

Allie or Enemy? _____

What do you like about this design ? _____

On an **A3** Page, Sketch/draw your wing profile and plane designs/logos to create a template(s) for your model.

Templates will be used to transfer wing profile and design logos to the material with the use of carbon paper.

Self Evaluation...

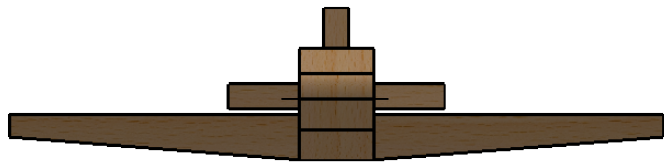

Does the project satisfy the design needs of the brief? How?

Are you happy with your final design? _____

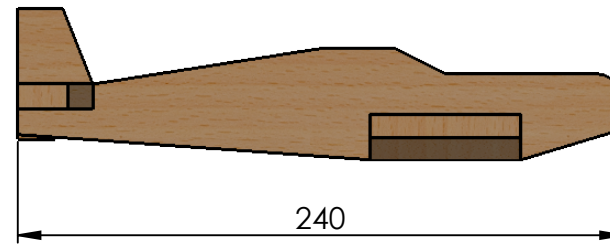

If so why? If not why? (Minimum 3 Points)

If you were to re-design your plane, what changes or modifications would you make?

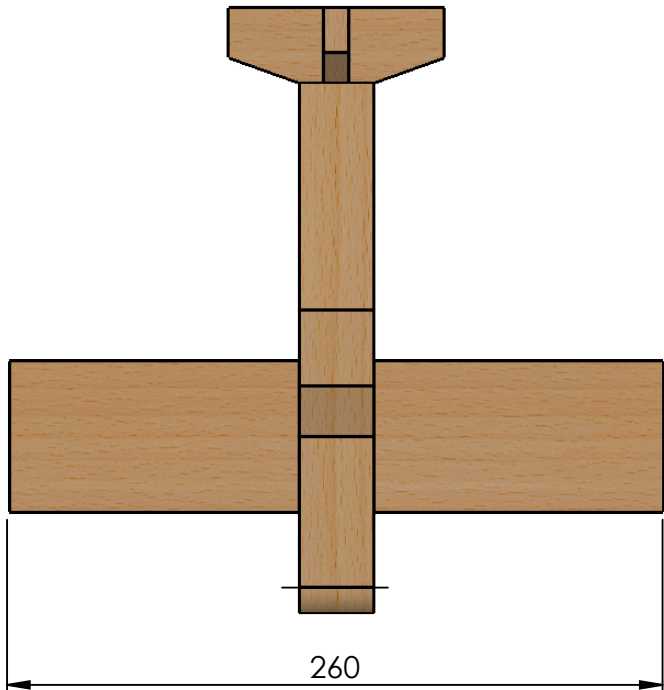

What did you learn from making this project?
